

## Systems-Centered® Training York UK

10/11-15 September 2023

Starts Monday 11 September 8.30 Ends Friday 13.15

**Intermediate Skills ONLY starts Sunday 10 September at 14.00**

**NEW VENUE!** Priory Street Centre, 15 Priory Street, York YO1 6ET

Six training tracks to choose from

<i>For those new and curious about SCT®, as well as those with previous SCT experience.</i>		
<p style="text-align: center;"><b>Foundation</b> <i>Mike Maher &amp; Lotte Paans</i></p> <p>The group will learn about SCT theory, practise skills and work as an experiential group. We will use functional subgrouping to explore differences instead of reacting to or scapegoating them. Please assess yourself to ensure this is a good time for you to participate in an experiential training.</p>	<p style="text-align: center;"><b>Making Work Roles Work (for us and our organisations)</b> <i>Rowena Davis with Janneke Maas</i></p> <p>This experiential workshop is for people wanting to apply their skills and explore their challenges in work roles. We will apply SCT in our work as team members in the workshop and explore how to use SCT in our outside work contexts.</p> <p>The content and experience of this workshop change every time so, if you've been before, you'll still have a new experience.</p>	
<i>For members of SCTRI who have met prior training goals in SCT</i>		
<p><i>You have met the learning goals for foundation training</i></p> <p><b>SCT Intermediate Skills Training</b> <i>Juliet Koprowska &amp; Madeline O'Carroll with Ros Wood</i></p> <p>Members practice applying SCT protocols and learn the theory that each protocol implements in a given context. Comprises theory, video-recorded skills practice and review.</p> <p>Before registering, contact <a href="mailto:Juliet.koprowska@sctuk.org">Juliet.koprowska@sctuk.org</a> or <a href="mailto:madeline.ocarroll@sctuk.org">madeline.ocarroll@sctuk.org</a> for an application form. <b>Applications due by 23 July 2023</b></p>		
<i>You have met the learning goals for foundation training</i>	<i>You have completed Intermediate Skills or beyond</i>	<i>You have completed Intermediate Skills or beyond</i>
<p style="text-align: center;"><b>Intermediate Leadership Development: Seeing the System</b> <i>Fran Carter &amp; Annie MacIver with Patricia Aerts</i></p> <p>This training focuses on further developing the capacity to "see" the system through the lens of TLHS and Systems Centered Practice. We will explore cases brought by members to think through a system analysis, collect data from the communication pattern (SAVI); develop and use a force field, identify implicit and explicit goals in the phase of development and plan intervention strategies.</p>	<p style="text-align: center;"><b>Observation training (observing Foundation group)</b> <i>Mike Maher &amp; Lotte Paans</i></p> <p>The goal is to develop the inter-person curious observer/researcher system, integrating data from apprehensive experiences with observations of the developing group.</p>	<p style="text-align: center;"><b>Container Training (in Foundation group)</b> <i>Mike Maher &amp; Lotte Paans</i></p> <p>Work as containers to contribute to the group development by learning to watch the group and use data from yourselves as information about the system and its phase of development.</p> <p>Before registering, contact Mike Maher to discuss criteria. (<a href="mailto:mike.maher1@me.com">mike.maher1@me.com</a>)</p> <p style="text-align: right;">Applications due by <b>3 July 2023</b></p>

Fees overleaf
